

BubbleBuster™

A PORTABLE DEVICE FOR AUTOMATIC FILLING AND PURGING OF HYDRAULIC SYSTEMS

The BubbleBuster™ device is contained in a practical box easy to carry thanks to wheels; it is easy to use allowing a clean and extremely efficient bleeding.

One man can easily perform by himself a complete purging of a hydraulic system in just five minutes with no oil spillage on the boat deck.

BubbleBuster™ produces a special zero emulsion effect eliminating all traces of air from the oil. It is compatible with all cylinders which have fast connect bleed fittings DN5 type: QCFN and QCFN94 (page 72). It is compatible with Teleflex® systems.

COMPONENTS INCLUDED

- No. 1 motor pump with safety valve , switch and 5 litres (1 gal) tank included, it allows the purging of 2 hydraulic steering systems before refilling. 12v electric motor with thermal protection; current absorption 8 A
- No. 1 4m (13') electric harness with alligator clips for fast connection with the battery.
- No. 1 double spiralled hose to connect to helm pump- extended length: 6m (19,6')
- No. 1 double spiralled hose to connect to cylinder – extended length: 6m (19,6')
- No. 1 utility tray
