

Zeus[®] S

Sailing chart plotter

- SAILING NAVIGATION REIMAGINED
- CRUISE & RACE
- MONOHULL & MULTIHULL
- TOTAL SYSTEM INTEGRATION
- 7, 9 & 12" DISPLAYS

B&G[®]

DESIGNED FOR SAILING

Navigation Systems | Sailing Chart plotter | Zeus[®] S

Zeus[®] S - Introduction

Introducing B&G's all-new B&G Zeus[®] S sailing chart plotter.

The Zeus[®] S has been designed with the cruiser, racer, monohull and multihull sailor in mind, providing a new intuitive user experience with user modes to easily get the best experience whilst sailing.

The bright, sunlight viewable, touch screen combined with the new C-MAP[®] X cartography enables new features and each sailing feature has been reimagined to be more capable and more intuitive.

All powered by the latest quad-core micro processors that allow Instrument, Radar, Sonar and Charting features to all work seamlessly together.

Zeus[®] S - Overview

- 1 12V power supply - 4 pin with yellow ignition
- 2 Latest industrial-spec Quad-core micro processors
- 3 NMEA 2000[®] compliant interface (Micro-C)
- 4 Ethernet, 100mbps, waterproof
- 5 Dual Wi-Fi (802.11g) for Over The Air software upgrades and B&G App support
- 6 Waterproof Micro SD card slot
- 7 IP67 Environmental rating
- 8 USB Port (Zeus S 9 & 12)
- 9 Sonar – CHIRP / Single Frequency, StructureScan, ActiveImaging and TotalScan support
- 10 Internal GPS with sail-specific filtering and 10Hz position updates. GLONASS, Galileo, Beidou and QZSS constellation support for highly-accurate positioning worldwide
- 11 Ultra-bright IPS SolarMAX[™] HD display
- 12 Touch screen for quick and simple operation. Includes touch-lock feature

Zeus[®] S - Screen options

Zeus[®] S is available in 7, 9 & 12" display options, utilising the latest SolarMaxHD™ IPS screen technology, optimised for wide viewing angles and in bright sunlight – even when wearing polarized sunglasses.

Zeus S 7

Zeus S 9

Zeus S 12

Zeus[®] S - C-MAP[®] Cartography

Compatible with the latest C-MAP[®] Discover[™] X and Reveal[™] X cartography providing up-to-date charting detail with a clean and modern look.

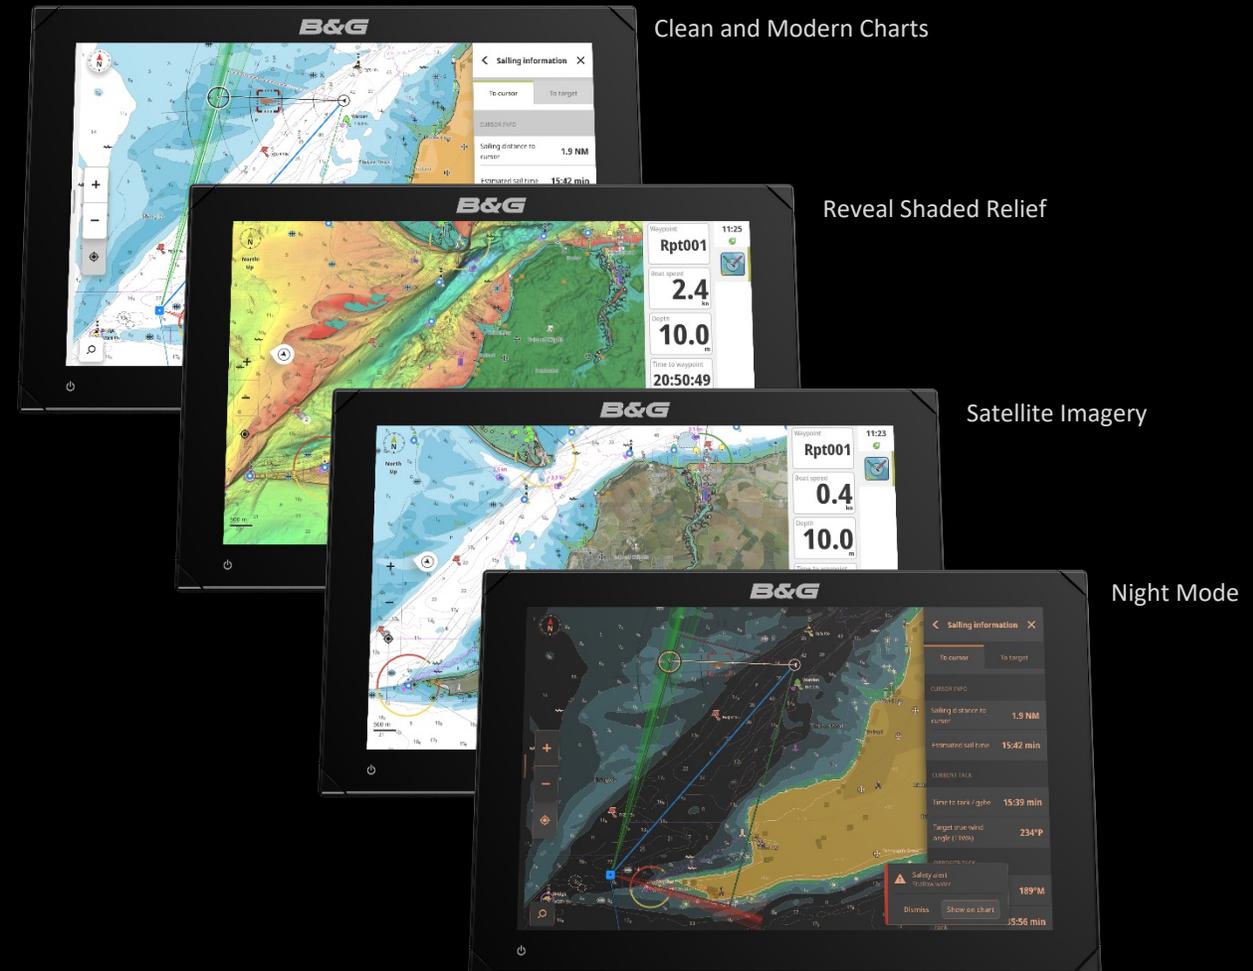

- Powerful chart overlays for

- Radar
- High Resolution Bathymetric contours (HRB)
- Shaded Relief*
- Satellite Imagery*

- Chart features include

- Chart Safety Alerts
- Tides and Currents
- Night Mode
- Chart Inspector tool
- Subscription-free Auto-routing
- Custom depth-shading

* C-MAP Reveal[™] X only
Some features require additional system components (e.g. radar).

Zeus[®] S – Sailing Features

User Experience

- Simple Home screen with easy to find features
- Sailing modes – Cruise & Race, just the data you want
- Multihull & Monohull characterisation
- Night mode optimised for low light conditions
- Configurable to suit your requirements

Charting

- Clear C-MAP X charts
- Safety Alerts
- Laylines with wind history
- Sailing Time to Cursor position
- Chart orientations: Wind up; Target up; Start Line up

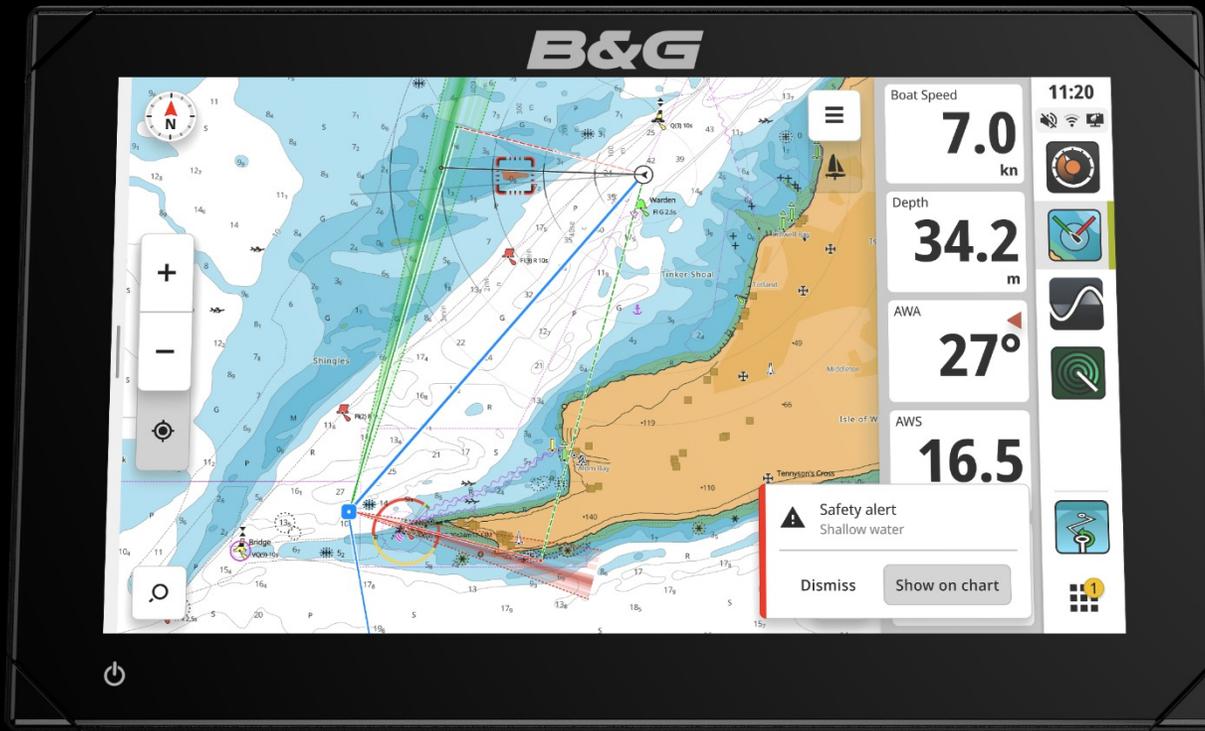

Instruments

- Sailing dashboards
- Dashboard editor
- SailSteer[™] gauge
- Tide Gauge
- Data Bar – prestart, upwind, reaching, downwind
- Triton[®] Edge integration
- Rotating mast support for wind and radar

Racing

- Quick race entry
- Race overview
- Race timer
- GPS start timer
- Start line tools

Zeus[®] S – Cruise mode

Cruise Mode enabled: showing laylines and chart safety alerts

Cruise Mode inhibits race features for a clean display – the right tools at the right time

- Chart Safety Alerts
- Sailing Laylines
- SailingTime & Distance to Cursor
- Subscription-free auto routing
- Tides & Currents
- Chart Inspector

Zeus[®] S – Race mode

Race Mode enables additional features for racing – the right tools at the right time

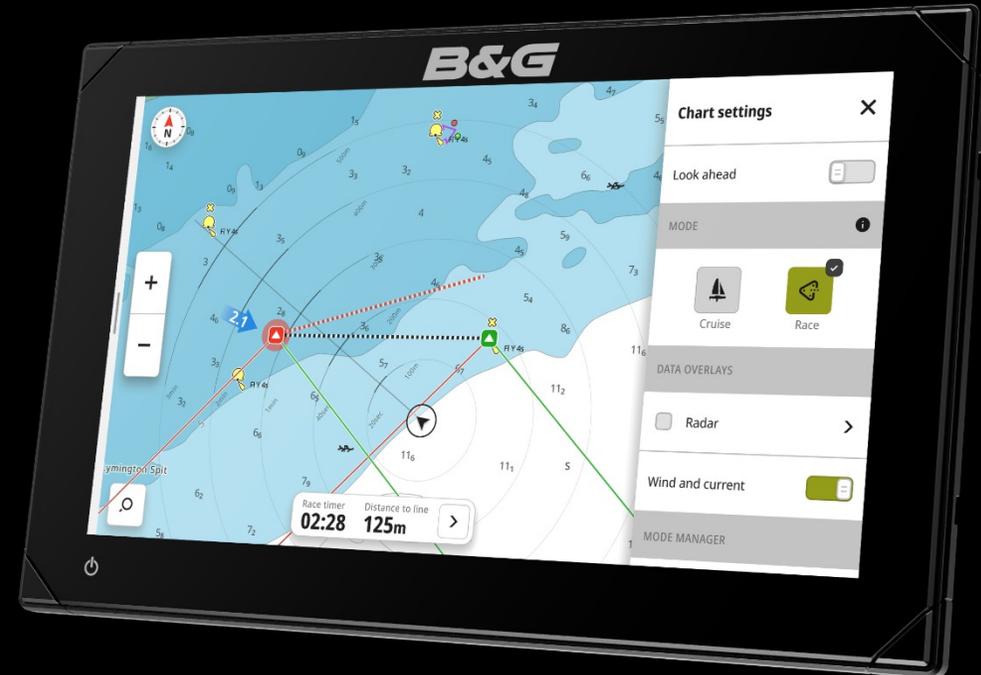

- Start Line
- Race Timer
- Quick Route Entry
- Race Overview

Race Mode enabled: showing start line with laylines, line bias, range-rings and Race Timer controls

Zeus[®] S - Sailing modes

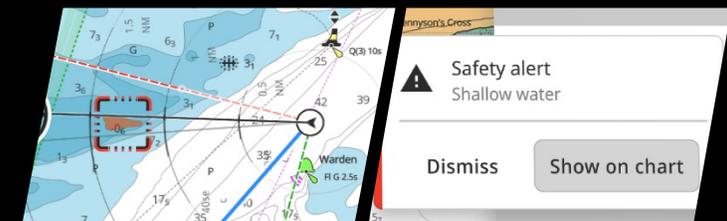

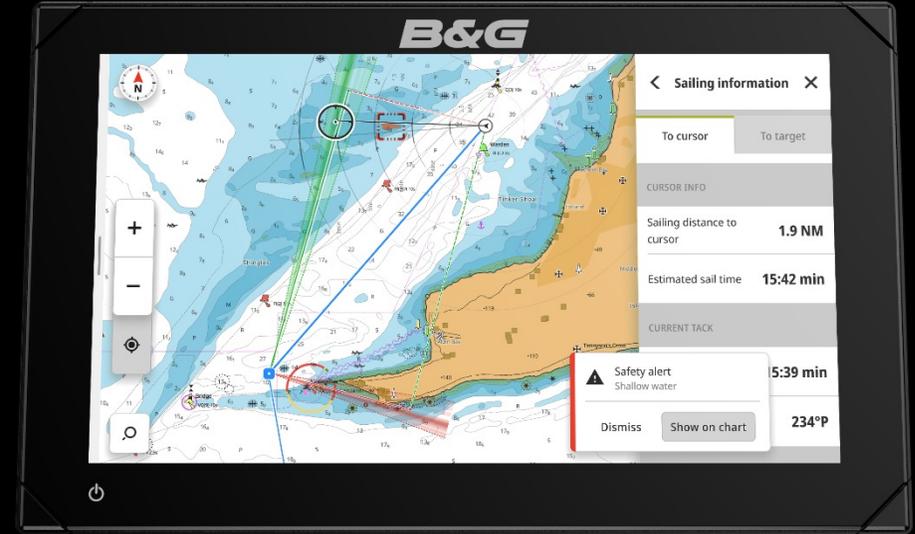

- Easily switch between Cruise or Race sailing modes
- Race mode enables additional features:
 - Quick race route entry
 - Port / Starboard waypoint rounding indicators
 - Race leg(s) overview
 - Start line chart overlay with:
 - Set the start line
 - Apply GPS offset for bow position
 - Bias indicator
 - Tide and wind indicators
 - Race timer
 - Countdown timer
 - Start/Stop/Sync/Reset
 - Countdown to GPS start time

Zeus[®] S - Safety Alerts

The **NEW Safety Alerts** feature included with Zeus S can constantly monitor your course for dangerous chart objects - no matter what your speed, zoom level or view. Whether it's a buoy, shallow water, rocks or land - Zeus S can warn you in advance.

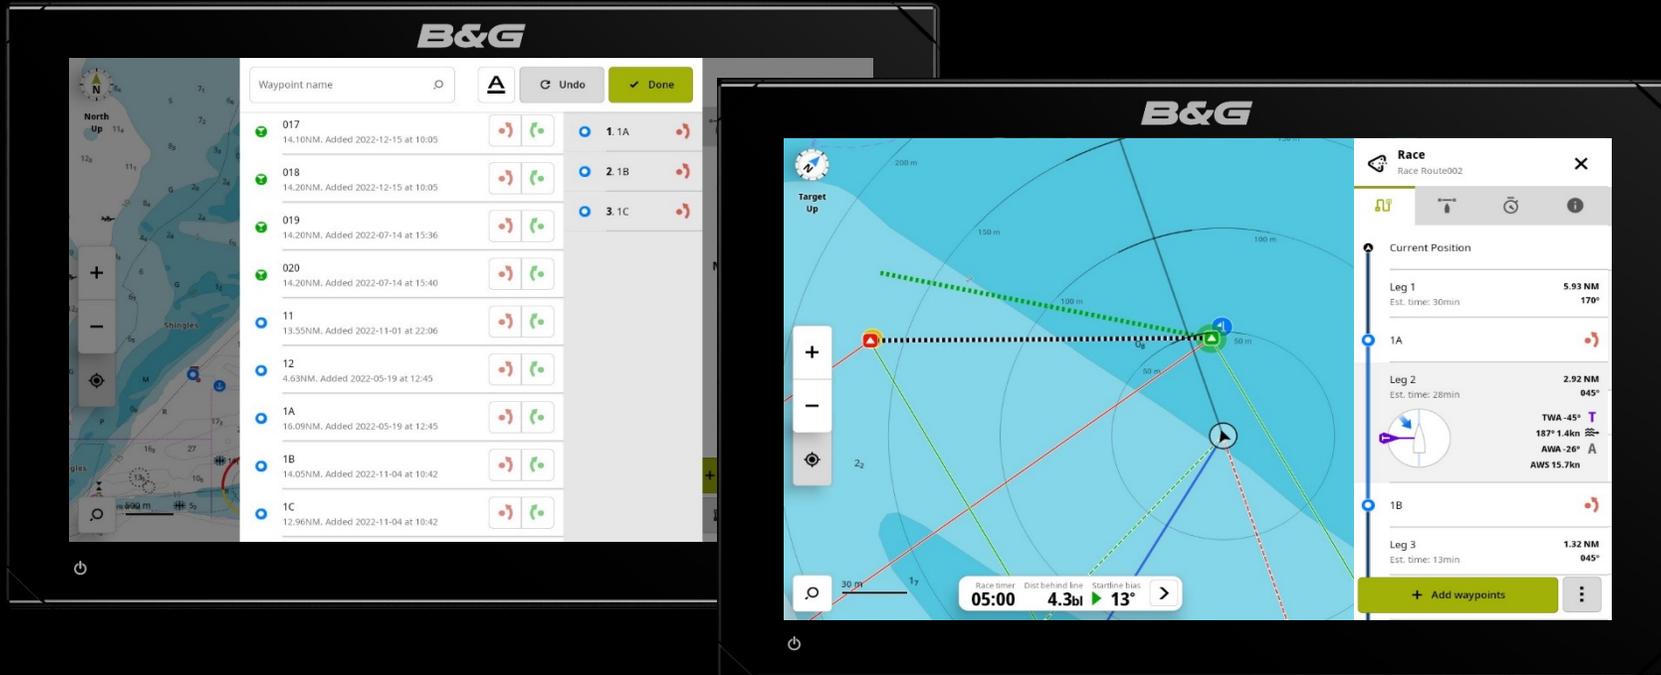

- C-MAP[®] Discover[™] X and Reveal[™] X charts provide detailed chart data - available at all times to Safety Alert
- Alerts provide the sailor with awareness of potentially dangerous charted objects above and below the waterline
- Automatically identify charted objects which are of a concern, warning or critical based upon their relative time and distance
- 'Harbor' and 'Offshore' modes allow Zeus S to automatically change the time and range sensitivity based on use
- Ideal for use in unfamiliar waters or at night when visibility is reduced to identify dangerous objects.

Safety Alerts feature requires a compatible C-MAP[®] Discover X or Reveal X chart covering the area around the vessel.

Zeus[®] S - Quick Race Entry

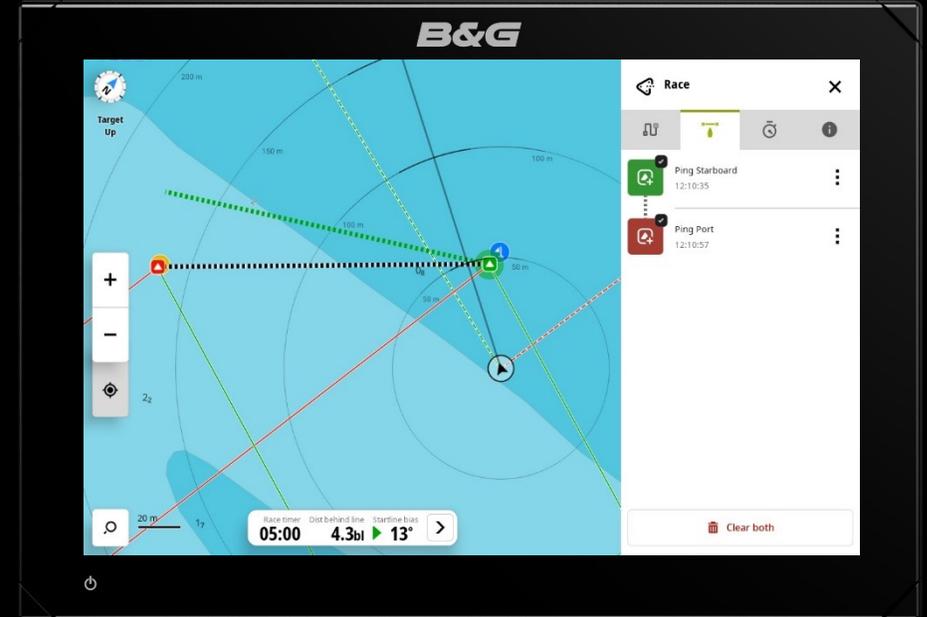

- Quickly create a race route from sorted list of waypoints
- Easily add port and starboard rounding indicators
- Intuitively add, remove or reorder a race route
- Use the Race overview tool to brief your race crew with expected wind angles and estimated sailing time for each race leg to aid decision making and sail selection

Zeus[®] S - Start line

The powerful Zeus Start Line tool is now chart-based to allow navigational awareness during the start procedure

- Start line view, including laylines, favoured end, tide set & rate and True Wind Direction
- Chart dynamically orientates and zooms to ensure boat and start line are in view
- Calculations are based on the yacht's Bow Position via an offset distance for the GPS
- Zeus S Internal GPS (or optional external options) provide precise position 10 times per second
- Simple setup - set the port and starboard start line end positions via a button press ("ping"), waypoint or cursor
- Easily return to view the start line on the chart via an edge marker
- Zeus S automatically captures your distance to line when the race timer reaches zero
- The following start line data is calculated and displayed:
 - Distance behind line (boat lengths or meters)
 - Distance to line
 - Distance to port & starboard ends
 - Start line bias to True Wind Direction
 - Bias advantage

Zeus[®] S - Race timer

Race Timer provides a flexible and integrated tool for starting and monitoring race duration

- Quickly adjust the race timer start value
- **NEW** Set the race timer to countdown to a GPS based start time. e.g. 1900h
- Race timer control is available from networked devices
- Start, Stop, Sync [to nearest minute] and Reset functions
- Automatically starts a stopwatch when the race timer reaches zero to track race duration.

Zeus[®] S - Chart Orientation

Easily rotate the chart to aid understanding and make better decisions for your route or race course

Single touch rotates between:

- North up
- Heading up
- Course up (Course over Ground)
- **NEW** Target up (Waypoint)
- **NEW** Wind up (True Wind Direction)
- **NEW** Start line up

Target up

Wind up

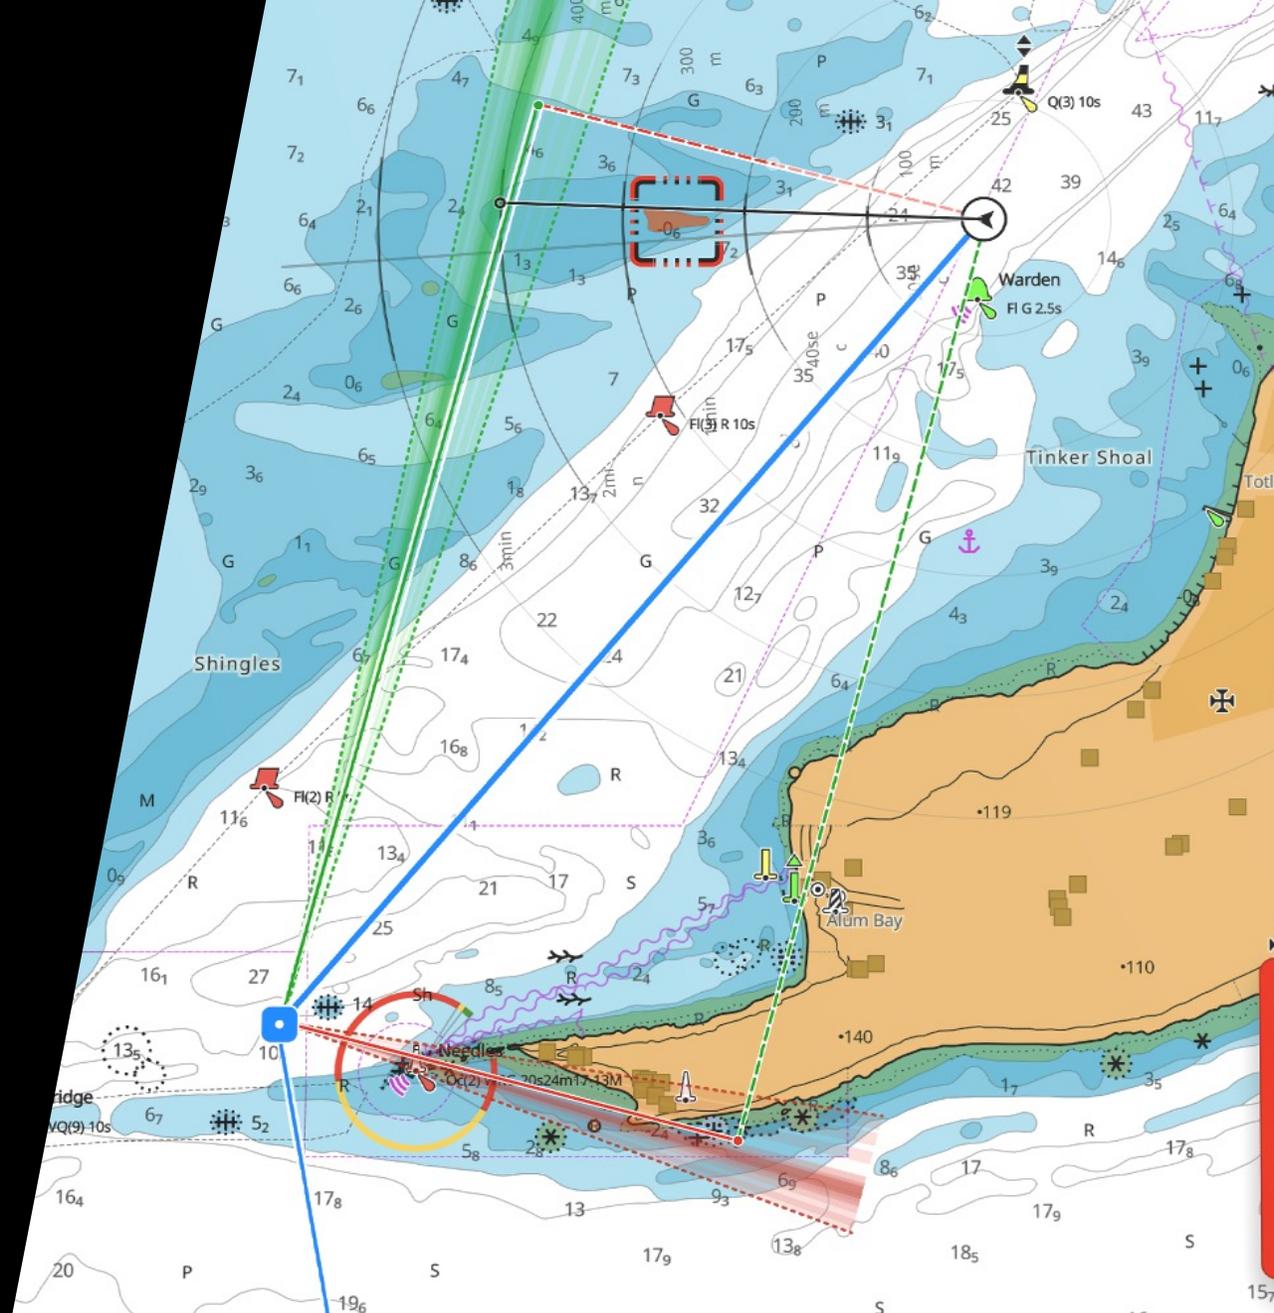

Startline

Zeus[®] S - Laylines

B&G pioneered laylines in chart plotters with the original Zeus[®]. Zeus S laylines provide a powerful decision aiding tool.

- Overlay your target sailing angles, upwind or downwind, to your destination on the chart
- **NEW** Enable wind history to show a wind shift heat map, which intensifies the colours over time to show the history of true wind direction
- **NEW** Mini-Inspect (short press) a layline to gain detailed target sailing angles, speed, SailingTime and distances
- **NEW** Full-Inspect provides detailed sailing information on current and opposite tacks
- Apply tidal correction to layline calculations
- Display laylines using actual data or input targets.

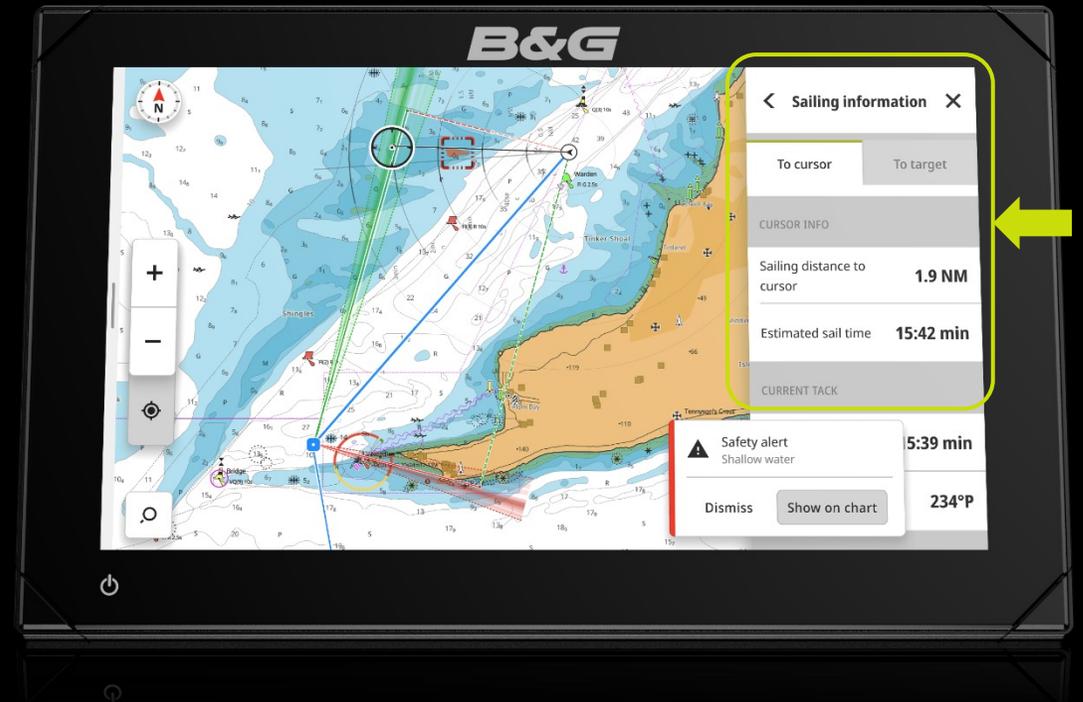

Zeus[®] S - Time to cursor

NEW Have you ever wanted to know how long it will take to sail to a location on the chart or you need to tell your race crew how long to go ?

Simply place the cursor anywhere on the chart to show an estimated sailing time and distance information to the cursor position.

Ideal, when you're navigating to a waypoint and you need to know sailing time to a secondary position.

Zeus[®] S - Tide Gauge

Need to know the state of tide quickly? Zeus S provides at-a-glance tidal data

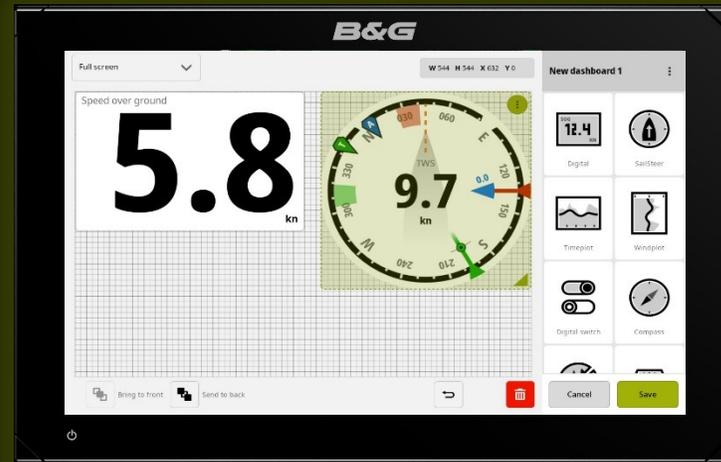

- Graphically see a tidal histogram including current time indication in the instrument data bar
- Choose between automatic selection of the closest tidal station, or select a specific station
- More detailed tidal data is available via the chart icons

Zeus[®] S - Instruments

Clear and easy to read instrument dashboards

- Quickly swipe between dashboards
- Create your own design using the dashboard editor.

Zeus[®] S - Wind plot

Dedicated wind charts for monitoring wind history and assessing trends

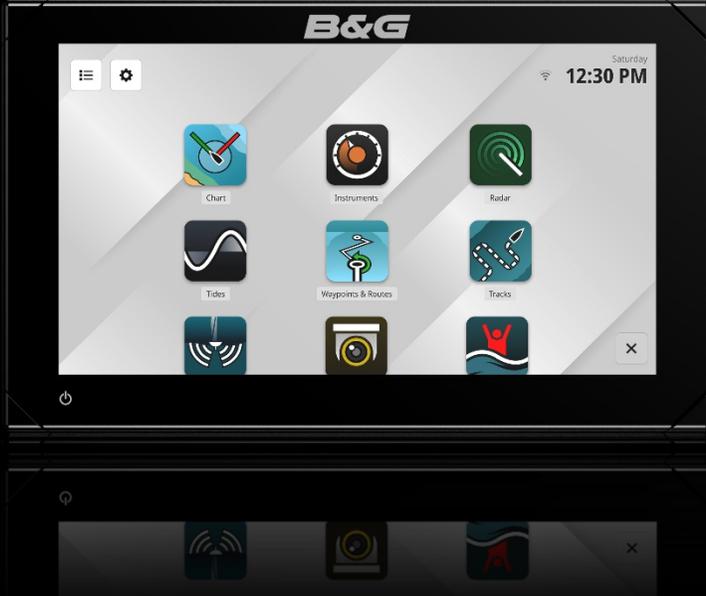

User configurable options include:

- Show Trend lines
- Show tack colour (port / starboard)
- Show Average
- Min, Max and current value
- Time range 1,5,10,30 or 60 minutes

Zeus[®] S – B&G Companion App

- Download the latest B&G App
- Plan & review your waypoints and routes using the latest C-Map[®] charts
- Seamlessly synchronise waypoints and routes between products
- Review your sailing data from Triton[®] Edge
- Register new products and access support information
- Complete product software updates

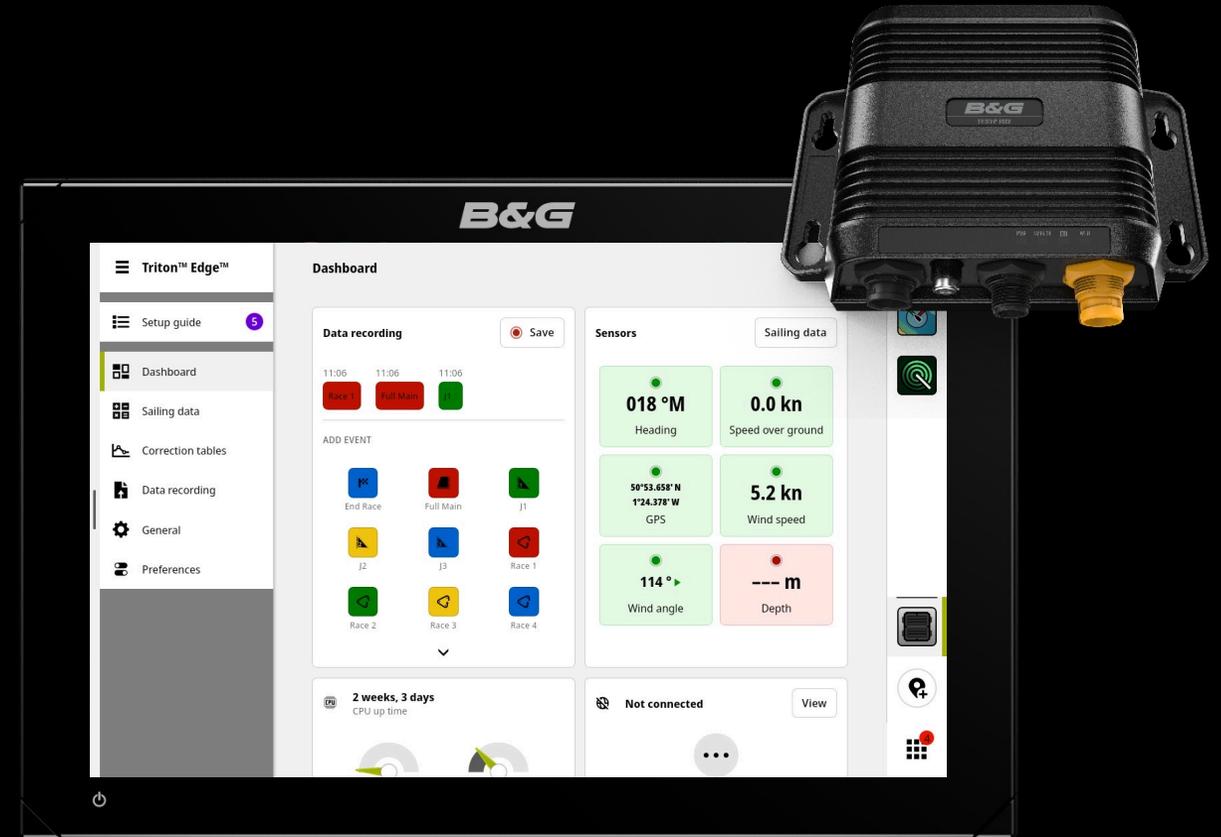

Triton[®] Edge Sailing Processor

Zeus[®] S - Triton Edge Integration

Adding a Triton[®] Edge Sailing processor to your system provides advanced wind, calibration and data recording. Zeus S provides a seamless integration with Triton Edge.

- Display all B&G NMEA2000[®] performance sailing data
- Seamlessly access the web interface on Triton[™] Edge
 - Control and system setup
 - Perform advanced calibration
 - Control data recording
- Connect via Ethernet or Wi-Fi

Sailing Processor

Triton Edge interface via Zeus S display

Zeus[®] S – Feature Summary

Chart

- Sailing Modes - Cruise & Race
- Safety Alerts
- Laylines
- Start line
- Wind up mode
- Target up mode
- Quick race route builder
- Race overview
- Sailing time and distance to cursor

Instruments

- User configurable dashboard(s)
- Swipe left/right to change dashboards
- Instrument data-bar
- Data bar tidal gauge feature

Radar

- Compatible with Halo 20, 20+, 24+ radar with velocity track & dual radar features
- Improved dock and on the water commissioning process
- Compatible with 4G broadband

Sonar

- Sonar support
- Traditional Sonar
- CHIRP Sonar
- DownScan
- SideScan

Zeus[®] S – Feature Summary

Waypoints & Routes

- Manage Waypoints & Routes
- Sync with user account via App

Tracks

- Review sailing tracks
- Sync with user account via App

Tides

- Access to tide and current information
- Quick tide view in data bar

IP Camera

- ONVIF IP Camera support
- Supports Navico IPCAM-1
- Picture in Picture

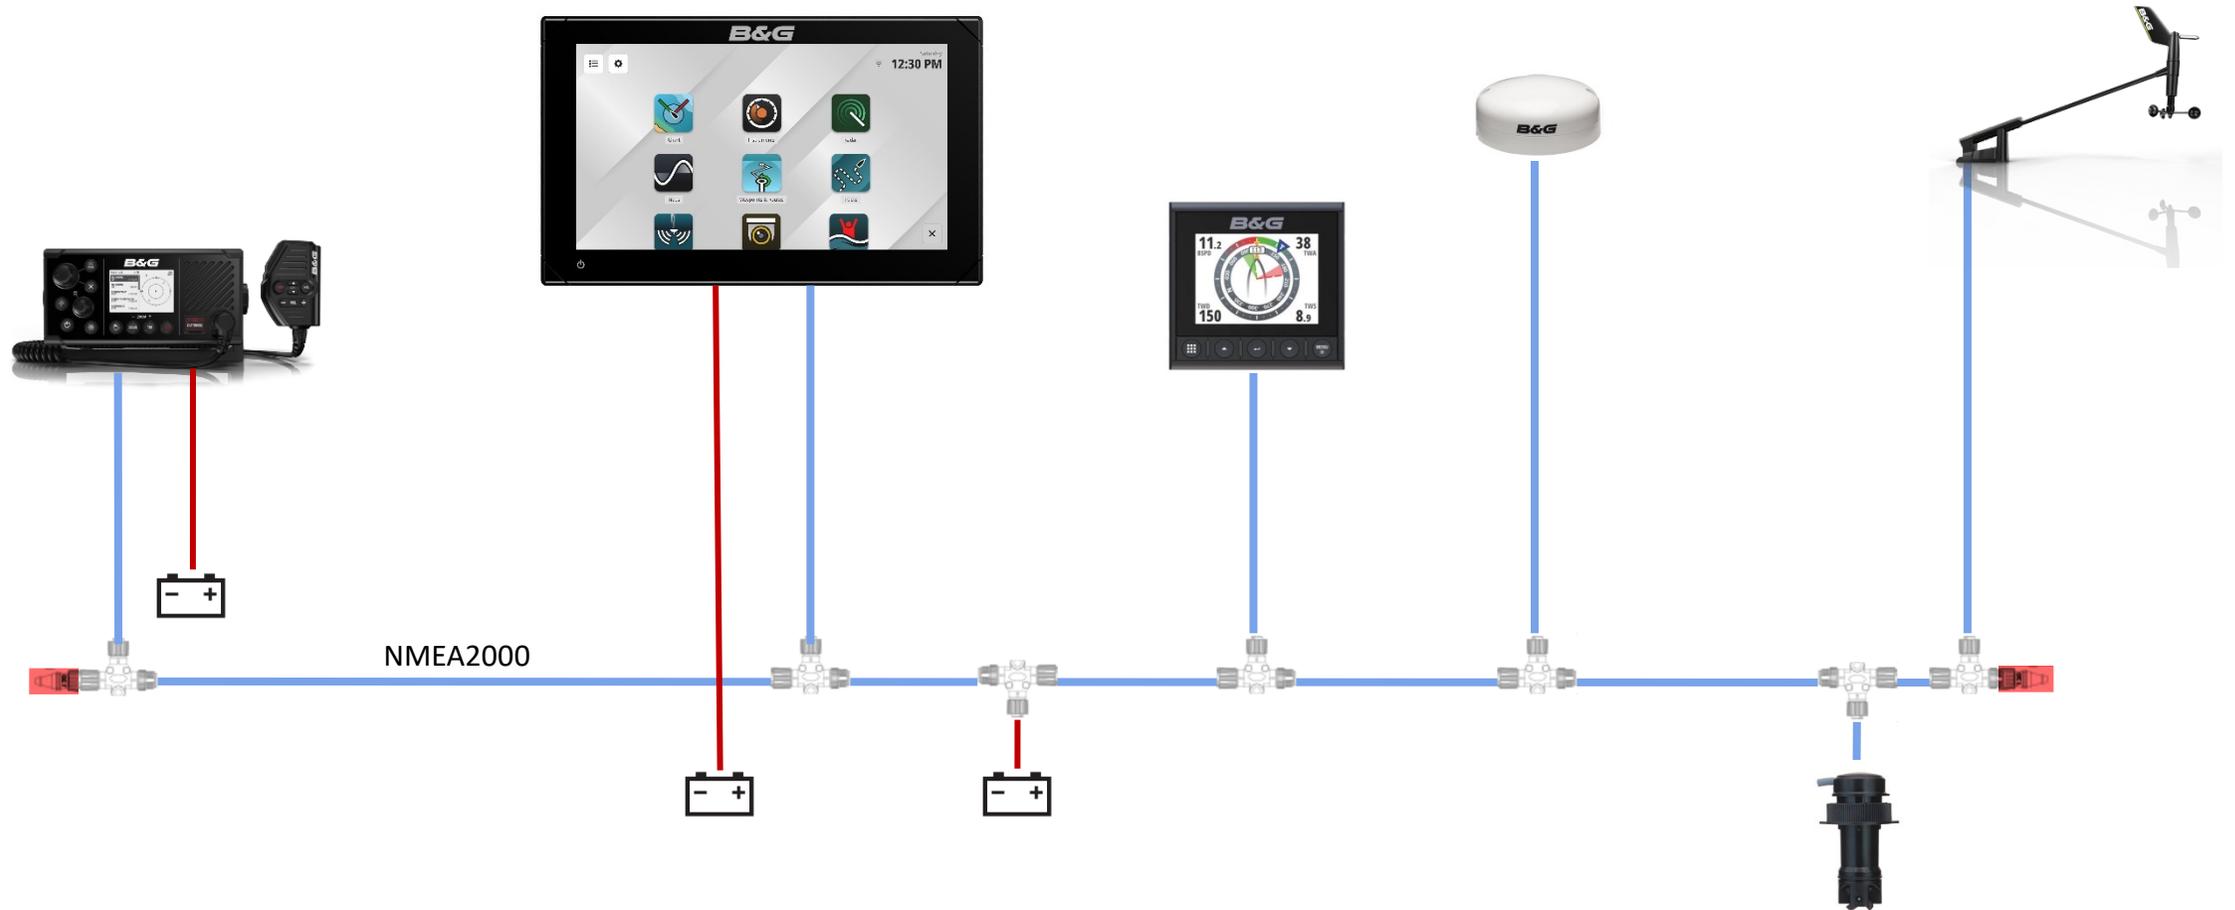

Triton™ Edge

- Integrates directly with Triton™ Edge Sailing processor
- Seamless access to the Triton™ Edge web interface

Zeus[®] S - NMEA2000[®] System example

Minimum Requirements for Sailing Features: GPS [integrated or external], Heading, Boat Speed & Wind

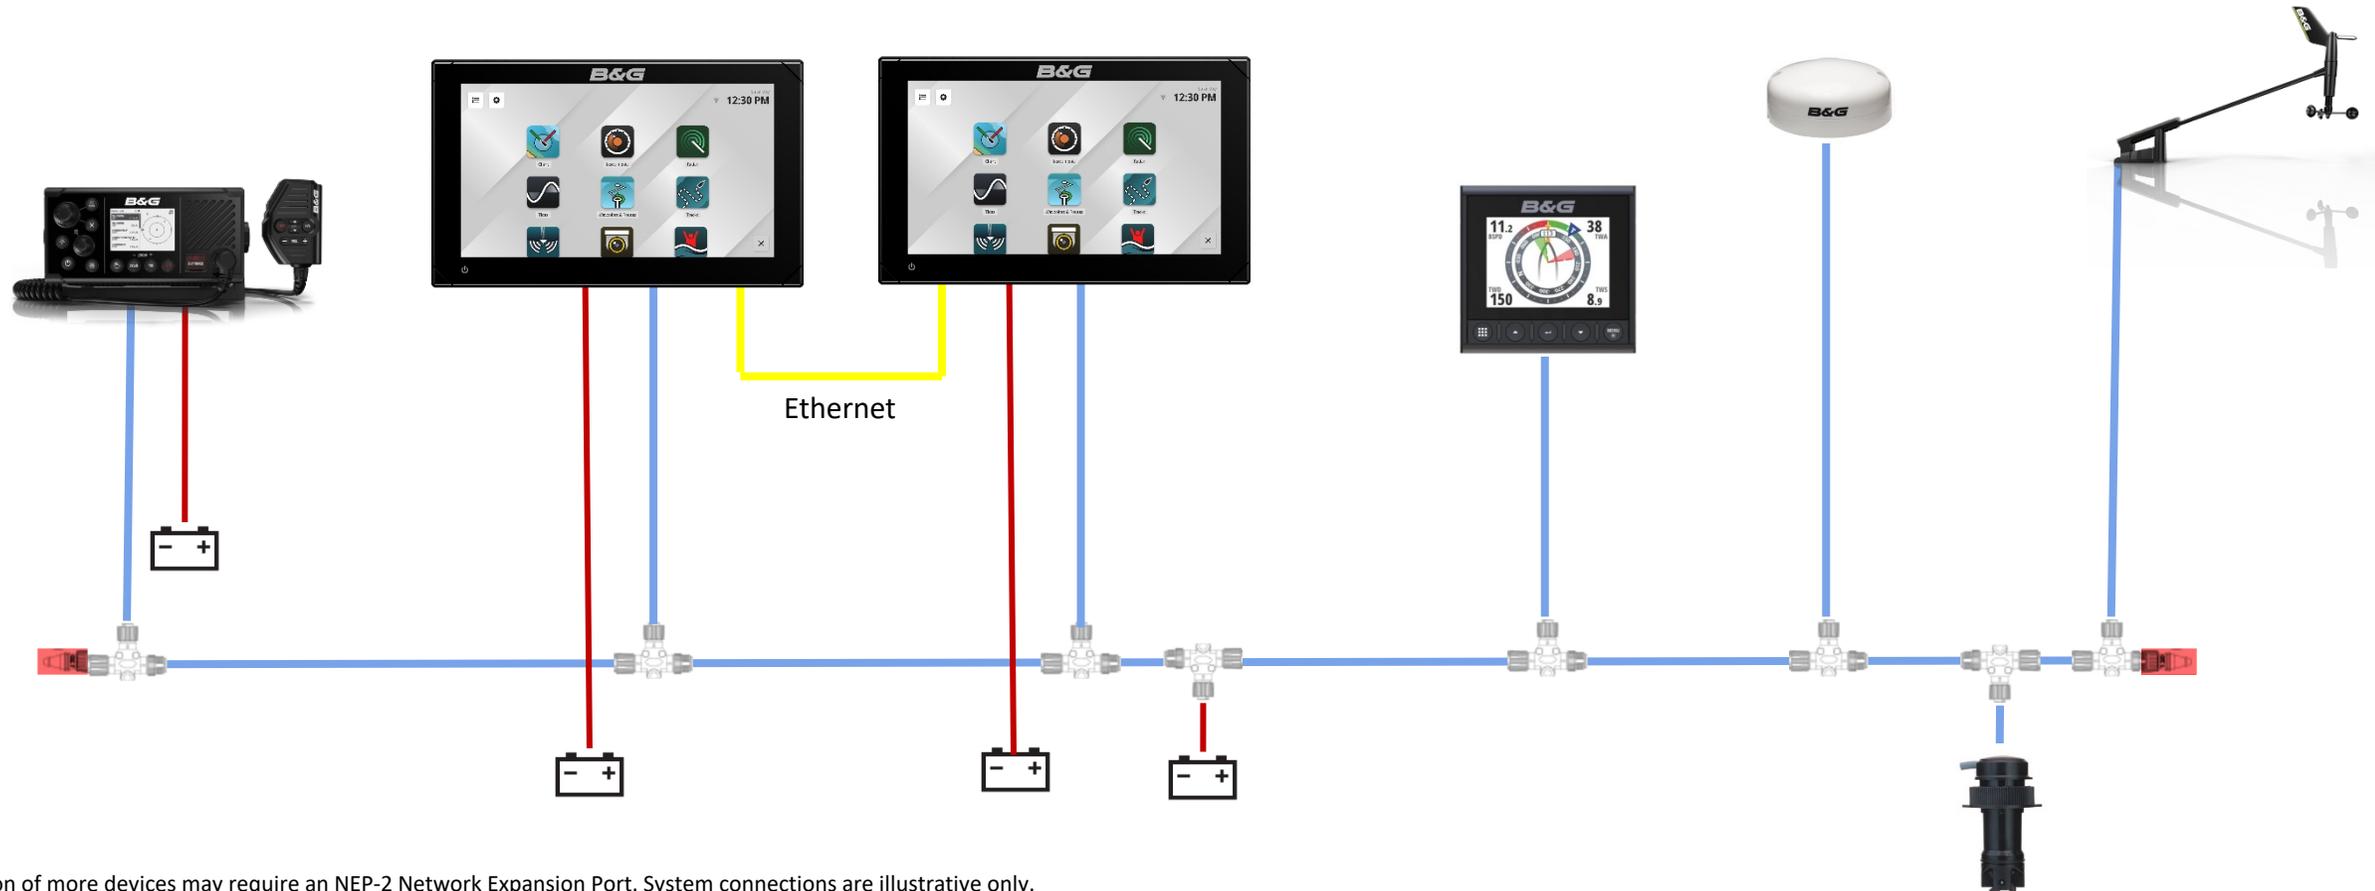

System connections are illustrative only.

Zeus[®] S – Dual display system example

Minimum Requirements for Sailing Features: GPS [integrated or external], Heading, Boat Speed & Wind

Network sharing:

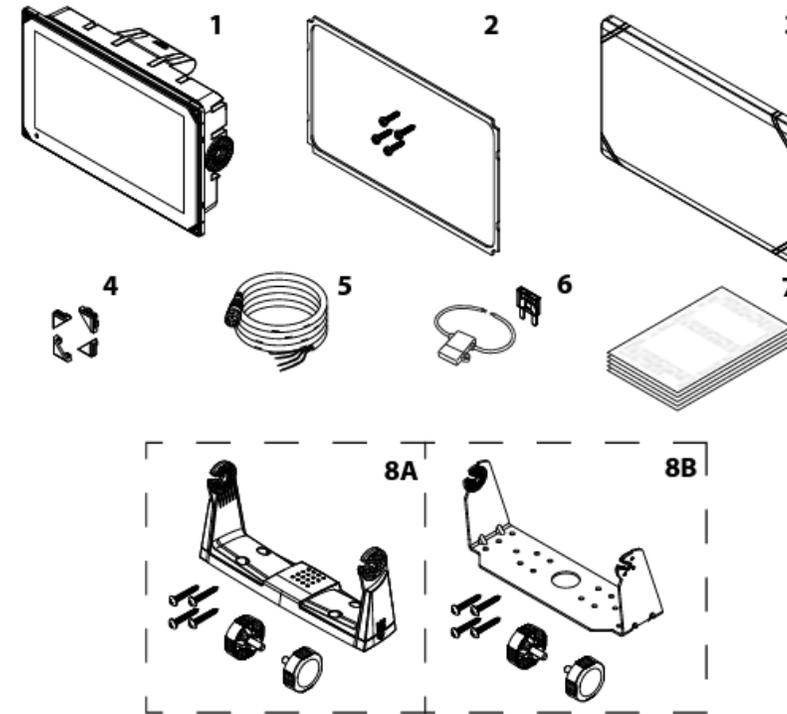

- C-Map[®] Discover[®] X and Reveal[®] X Charts
- Waypoints & Routes
- Radar

Connection of more devices may require an NEP-2 Network Expansion Port. System connections are illustrative only.

What's in the box

1. Zeus S™ display unit
2. Panel mounting kit
3. Sun Cover
4. Corner clips
5. Power Cable (2.0m)
6. Fuse holder and fuse
7. Installation guide and quick star documentation
8. Mounting U-bracket

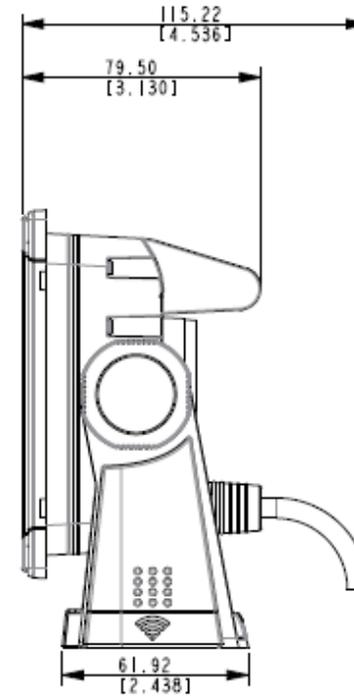

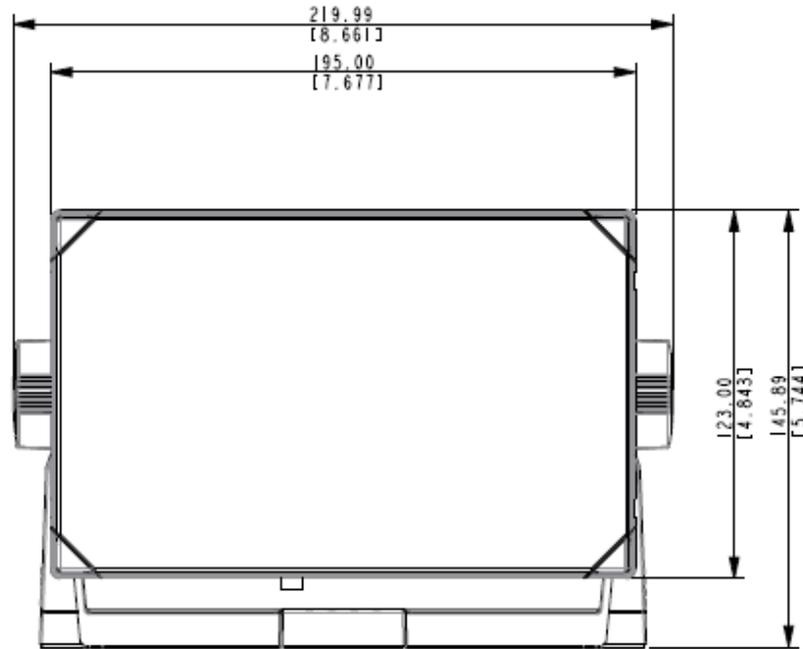

Note

NMEA2000 and Ethernet cables are not included and should be ordered separately if required

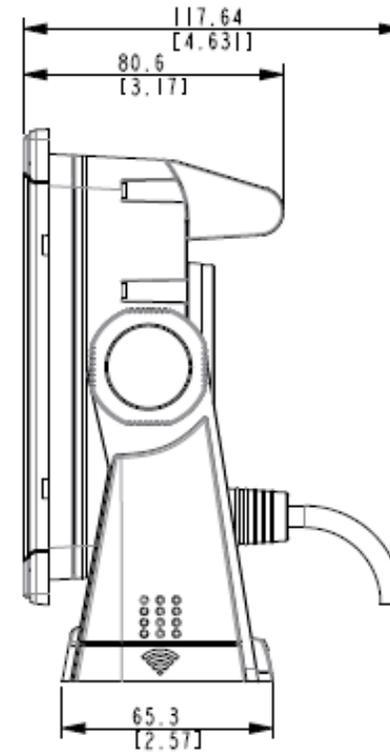

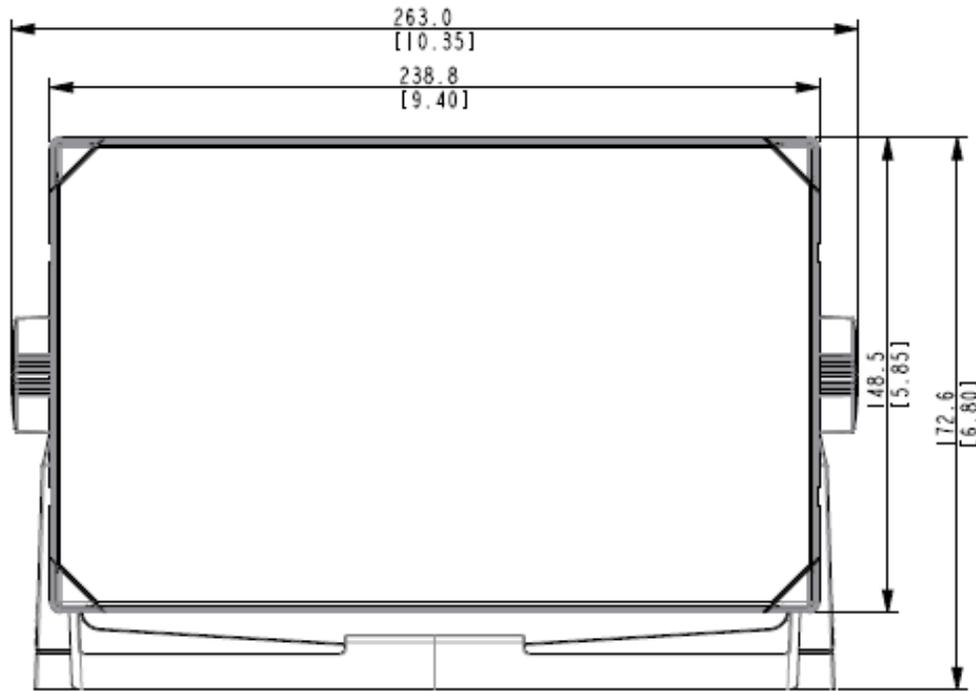

Optional Accessories

Ethernet Cable 1.8m / 6'	000-0127-001
Ethernet Cable 4.5m / 15'	000-11246-001
Ethernet Cable 7.6m / 25'	000-0127-30
