Latest addition to the Hella marine range

New!

Sea Hawk-470 LED Light Bars

- Powerful light output of up to 2800 lumen
- Low power consumption (36W)
- Highly adaptable mounting system
- High resistance to corrosion
- 3 engineered optic designs
- Totally impervious to the environment
- Thermally conductive 'non-metal' housing
- Designed and manufactured in NZ
- 5 year warranty

Each lamp comes supplied with a versatile 316 Stainless Steel bracket design which allows upright or pendant mount with feet aimed in or out.

Bracket Mounted Out - Bracket Mounted In

Bracket contents supplied with each lamp:
2x Nuts, End Adaptors
2x Friction Washers
2x 316 Stainless steel brackets
2x End Knobs, Set Screws and Screw Caps

The Sea Hawk-470 LED Light Bar series has been extended to include close range, long range and a unique combination work lamp.

Unique Corrosion Proof Housing

Providing unmatched corrosion resistance due to an innovative thermally conductive polymer housing. This advanced material draws heat from internal electronics for reliable long-term operation and eliminates the need for aluminium housing, removing corrosion risks in the harsh marine environment.

Tough Grilamid® Lens

Grilamid® offers an unbeatable combination of properties including toughness against impact, long term UV stability and resistance to commonly used chemicals and washes. Grilamid® will not lose its lustre or embrittle over time but will remain clear, transparent and impact tough for the life of the product.

Quality and Warranty

All Sea Hawk lamps are designed and manufactured in New Zealand, completely sealed against dust and water and carry a 5 year warranty.

NEW Sea Hawk-470 Combi LED Work Lamp

The Combi is a unique light bar offering three light options: close range, long range or combined all in a single light bar making it a great addition to any vessel. Only 1kg of weight means less stress on mounting locations. Don't be fooled by its size though, this light bar certainly punches above its weight with its long distance and spread light output.

NEW Sea Hawk-470 LED Work Lamps

High performance work lamps with a light output of 2800 lumen for either spread or distance. Multivolt™ circuitry means the lamps can be used with both 12V or 24V DC systems, whilst only consuming 36W on high or 4W on low. Available in close and long range options.

HELLA Sea Hawk-470 LED Light Bars are the natural choice when exceptional durability and long term reliability in demanding environments are needed.

Excellent light output and wide spread to evenly illuminate cockpits and work areas.

P/N 8HG 958 128-811 Accessory

An optional double bracket enables you to stack multiple lamps to increase the light output or spread of light.

Hella marine Sea Hawk-470 LED Light Bars

Mounting	Upright or pendant
Operating Voltage	Multivolt 12/24V DC
Degree of Protection	IP6K7/IP6K9K - Completely sealed
Cable	Pre-wired with 2.5m of cable
Material Description	'Non metal' Thermally conductive ceramic polymer housing Heavy duty Grilamid lens
Weight	950g (including cable and brackets)
Manufactured In	New Zealand
Approvals	CE, RCM

Dimensions:

a =	528mm (20.79")
b =	67mm (02.64")
c =	44mm (01.73")
d =	57mm (02.24")
e =	42mm (01.65")
f =	460mm (18.11") (Mounting Hole)
g =	524mm (20.63") (Mounting Hole)

Individual lamp dimensions with supplied brackets
