

FASTY AUTOMATICALLY RETRACTED RATCHET

Automatically retracted ratchet for light loads.

The function is similar to a regular seat belt.

You pull out the strap and anchor the load with help from the two hooks and then the load is tensioned like a traditional tensioner.

Pin-pack for hanging on spears.
MOQ 1000 pcs if branding.
Art no. 332

Self-lock device

The webbing blocks in a self-locked position when pulled out.

Pull out the webbing slightly to unlock while the webbing locks under self-locked position.

A built-in power spring automatically retracts the webbing for easy storage.
