**RE: SIERRA TURBINE FILTRATION UPDATE**

With the recent release of the "V" Series Turbine Filters, Sierra would like to explain how our turbine filters interchange with the OEM "V" Series. Sierra's turbine filters are interchangeable with the "V" series filters providing that the filters are used in legacy filter assemblies. Please see **Table 1** below for the assemblies and models that are compatible with Sierra turbine filters. The new FV and VMA turbine assemblies are **NOT** serviceable with Sierra turbine filters and only fit OEM "V" Series turbine filters at this time. See **Table 2** below for the latest interchange guide for Sierra turbine filters.

Assemblies	Models
900	FH, FG, FGM, FF, FE, MA, MAM
